ICE HOCKEY HELMET

Engineered for optimal protection and comfort, our helmets feature advanced technologies designed to absorb impacts while ensuring a snug fit for players of all ages and skill levels. Available in a variety of sizes and colors, our helmets not only meet stringent safety standards but also allow athletes to express their unique style on the rink.

GY-PH884M-C2

NEW

The high-performance polypropylene outer shell offers excellent low-temperature durability and outstanding impact resistance. 3D round base reduce the potential for pressure points and helps mitigate high-energy impacts. Strategically placed pods offer superior comfort and help mitigate mid and low-energy impacts.

GY-PH884E-C2

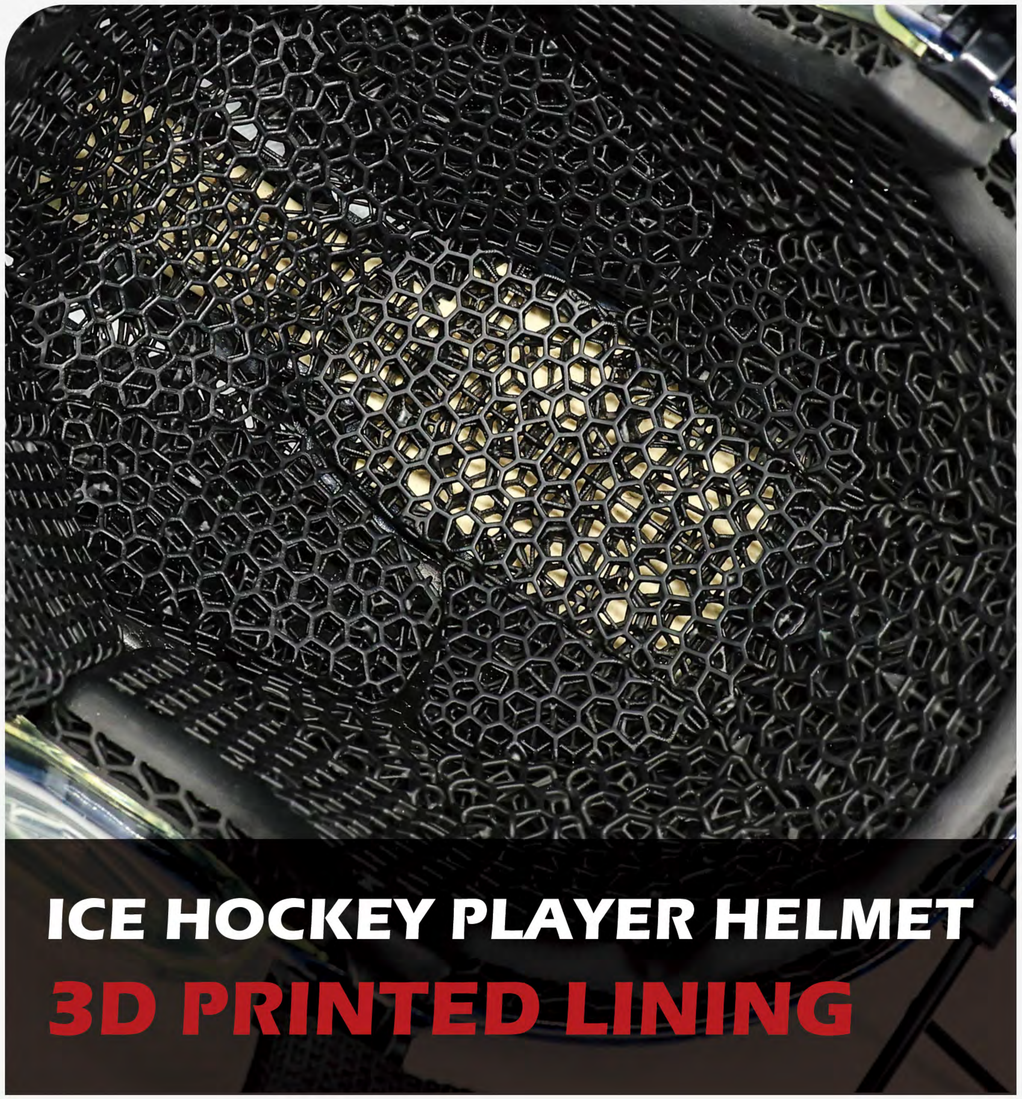

NEW

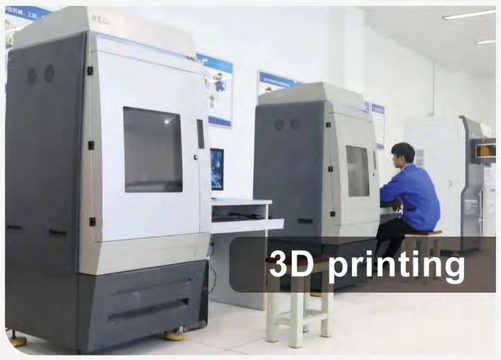

Absorption Foam Lining + Steel Full Face Cage

TOP Ice Hockey Player Helmet

GY-PH884CD-C2 **Carbon Fiber + 3D Printing**

Featuring a high-strength carbon fiber outer shell, this helmet is engineered to absorb impact while remaining lightweight, allowing for optimal performance on the ice. The innovative 3D printed lining ensures a snug and customized fit, enhancing comfort during long hours of play. Ventilation channels provide excellent airflow, keeping you cool and focused as the game heats up.

GY-PH884CE-C2 100% Carbon Fiber

Constructed from 100% Toray Carbon Fiber and measuring just 1.2mm thick, this helmet delivers an optimal balance of lightweight comfort and exceptional strength.

GY-PH884D-C2 3D Printed Lining

Featuring an innovative 3D printed liner, GY-PH884D ensures a customized fit and enhanced impact absorption, providing superior protection on the ice. Lightweight and breathable, this helmet is designed for optimal comfort and performance.

GY-CG9000D NEW

This cutting-edge nano PU 3D-printed chin guard offers lightweight durability, superior impact absorption, and a precision fit. Its advanced lattice structure enhances protection while ensuring breathability and comfort.

GY-CG025D NEW

Crafted with nano PU 3D printing for exceptional impact resistance and flexibility, its ergonomic design ensures a secure, comfortable fit, while the breathable structure enhances airflow.

GY-SW025 Goalie Mask Sweat Band NEW

Made from absorbent, quick-drying fabric, it wicks away sweat to prevent slippage and discomfort. Lightweight and durable, it fits easily on your mask for quick access.

GY-HR025 Hockey Helmet Repair Kits NEW

These kits provide quick, reliable fixes for loose parts, and broken fasteners. Easy to use and compatible with most helmet models—keep your helmet safe and secure all season long.

ICE HOCKEY JERSEY

Engineered for performance, the jersey features moisture-wicking, breathable fabric for maximum comfort on the ice. Lightweight yet durable, they offer superior mobility with reinforced stitching for long-lasting wear. Designed with team pride in mind, they combine style, functionality, and ventilation to keep players cool and agile during intense gameplay.

HOCKEY SOCKS WITH SHIN GUARDS

Ice hockey socks with built-in shin guards provide superior protection, comfort, and performance. Designed to fit snugly over shin pads, the socks offer moisture-wicking fabric for breathability and reinforced stitching for durability. Ideal for players seeking seamless integration of safety and mobility on the ice.

GY-NG025 XRD Cut-resistant

XRD ice hockey cut-resistant neck guard combines military-grade Kevlar for slash protection and XRD strips for impact absorption. The ergonomic, breathable nylon design ensures comfort, while detachable inserts allow easy cleaning. Adjustable hook-and-loop straps provide a secure fit. Built for elite safety and mobility—ideal for players who demand uncompromising protection.

HEADGUARD Ice Silk

Stay cool and protected with this lightweight, breathable headguard made from premium ice silk fabric. Designed for superior moisture-wicking and quick-drying comfort, it offers a snug, irritation-free fit. Ideal for sports and outdoor activities, it ensures UV protection while keeping you fresh and focused under pressure.

NEW ZEALAND PATENT

NEW ZEALAND INTELLECTUAL PROPERTY OFFICE

The 3D printed lattice cushioning lining can significantly reduce the risk of concussion and the degree of injury after impact through efficient energy absorption and force unloading.

- Its core logic lies in the porous characteristics of the lattice structure: when hit by external force, the lattice unit will absorb and disperse most of the impact force through orderly deformation, partial collapse, and etc., greatly reducing the peak impact force transmitted to the head and reducing the damage to the brain caused by severe concussion.
- However, concussion protection is a systematic project, and it is also necessary to combine factors such as the strength of the helmet shell, the fit of the lining to the head, the angle and strength of the impact, and etc.
- The lattice lining is a key buffering protection link. The lattice we currently design is composed of thousands of nodes. Each node has a diffusion effect.

GY-FM255D 3D Lattice NEW

This advanced penalty corner face mask combines cutting-edge 3D-printed lining technology for personalized comfort and breathability with a precision-crafted stainless steel impact grille. Experience unparalleled safety without compromise.

GY-FM255

The cat-eye designed grille maximizes downward vision and peripheral awareness, while the robust stainless-steel construction delivers uncompromised strength against high-velocity shots.

GY-FM226

The robust stainless-steel grille offers unflinching protection against high-velocity shots with exceptional strength and durability.

Breathable Ortholite Foam

Breathable Ortholite Foam

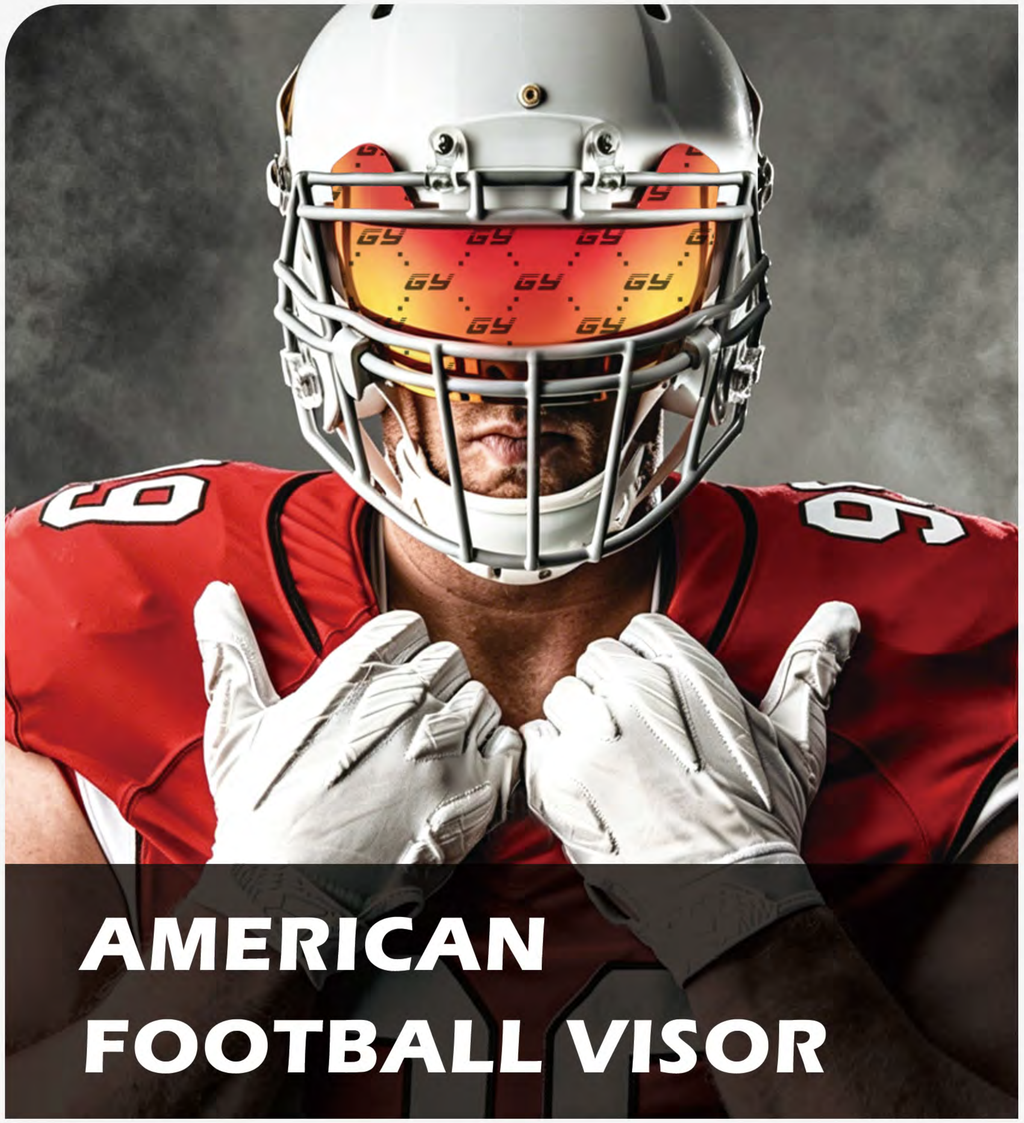

AMERICAN FOOTBALL VISOR

Engineered for performance and protection, GY American football visors shield players' eyes from impact, glare, and debris while ensuring clear vision on the field. Designed to fit securely with helmets, these durable visors enhance safety, comfort, and style, making them an essential accessory for players at all levels.

Revo Color + Pattern

NEW

Stand out on the field with the Revo Color + Pattern visor, featuring a vibrant gradient with a dynamic logo pattern. Designed to reduce glare and enhance contrast, this visor delivers superior optical clarity while protecting your eyes from impact, debris, and harsh sunlight. Lightweight and durable, it fits securely with your helmet for maximum comfort and performance. Perfect for players who want both protection and a bold, eye-catching look.
